FESTIVAL DE CANNES

Great place facing the old harbour !

A Cannes institution and an atypical setting for meal breaks especially dedicated to seafood, this is an address that makes the tasty reputation of this corner of Cannes, facing the old port.

We settle in a vast chic and colorful frame with a modern and baroque spirit, between painted walls, chandeliers, convivial round tables coated with white, benches and armchairs iridescent purple. The card announces regional specialties, rich dishes full of flavors that have long been the hallmark of this place.
